President's Message – Fall 2017  
Sindy Nicholson

Happy autumn everyone! The theme of the 2017 National Forest Week was “Our Stories, Our Future” and the SFA partnered with the Saskatchewan Section of the Canadian Institute of Forestry (CIF) to host various events in Prince Albert. The CIF also hosted some activities in Hudson Bay. The SFA once again hired a summer student for the months of May and June with funding from Employment and Social Development Canada. The SFA office was closed for the months of July and August and will be closed these months in future years. However, emails will continue to be monitored over the summer months and voicemails returned in September when the doors open again. If you need assistance during the months of July and August, you may always contact any executive member. Our partnerships remain strong, as exemplified by the numerous Conservation Learning Centre (CLC) tours already conducted and many more booked as well as by our shared office space with the Prince Albert Model Forest. There has been some trail maintenance done at Kristi Lake this summer, ensuring an enjoyable walk for those that venture out. Autumn is especially nice time of year to go for a walk and enjoy the variety of colours.
